Fullstack .NET Developer

Fullstack .NET developer working in C# across the whole stack: serverless Azure backends (Functions, Cosmos DB, Service Bus), REST APIs on ASP.NET Core with EF Core and SQL Server, and web interfaces in Angular and Blazor. Experience covers event-driven, asynchronous pipelines and high-load, multi-threaded services, plus authentication and permission models built on JWT and MSAL. Looking to keep growing as a backend-leaning fullstack engineer on ambitious, well-built products.

SKILLS

Programming Languages: C#, TypeScript, JavaScript, SQL, Python (Basics), C++ (Basics), CFC (Continuous Function Chart), ST (Structured text)

Data Access & Databases: Azure Cosmos DB, Entity Framework, ADO.NET, LINQ, MS SQL Server, Redis, SQL Server Management Studio

Web & UI Development: ASP.NET, Angular, MSAL, Blazor, React, Razor Pages, MVC, HTML / CSS, REST API, SignalR

Cloud & DevOps: Azure Functions, Azure Container Apps, Azure Service Bus, Azure Key Vault, Azure Blob Storage, Azure DevOps (CI/CD), Azure Web App

Frameworks & Tools: .NET / .NET Framework, Docker, Git / GitHub, MassTransit, RabbitMQ, Microservices, Postman, Visual Studio, VS Code, Oracle VirtualBox

Desktop Development: WPF, Windows Forms, MVVM

Testing: MSTest, xUnit, NUnit, Moq, FluentAssertions

Architecture & Practices: Event-Driven Architecture, Microservices, Git-based Version Control, MVC / MVVM, Scrum / Kanban

Other Technologies: Matlab / Simulink

WORK EXPERIENCE

Intellidev sp. z o.o.

Aug 2024 – Present, Remote

Fullstack .NET/Azure Developer

FollowApp.Care

Clinic Engagement Platform

A service for clinics, specifically dental, with scheduled patient surveys and notifications for engagement, plus alerts and leads for tenant statistics. Platform also keeps notes and pulls data from a range of external sources, generating documents from that data on demand.

Responsibilities:

- Developed and maintained the admin platform on an Angular monorepo

- Built the patient survey UI with lead capture
- Implemented JWT-based permission scoping
- Integrated MSAL authentication
- Delivered alerts and notifications
- Handled tenant / location-scoped data management
- Built backend microservices as Azure Functions
- Developed an asynchronous PDF-generation service
- Backed backend processing with Azure Service Bus
- Set up CI/CD pipelines to deploy Azure Functions and container apps

Tech stack: .NET, C#, Angular, TypeScript, MSAL, Azure Functions, Azure Service Bus, Azure Cosmos DB, Azure Container Apps, JWT, REST API, Azure DevOps, Docker, Git

Individual Entrepreneur

Feb 2023 – Jul 2024, Remote

Fullstack .NET/Blazor Developer

Browser Automation Web Application

A web-based application designed to help users manage and automate their online tasks, especially related to expenses, across external services via browser automation.

Responsibilities:

- Handled multi-threading and task coordination
- Optimized resource usage and performance
- Developed Blazor UI components
- Collaborated using GitHub

Tech stack: .NET 8, SQL, MS SQL Server, Entity Framework, MSTest, MassTransit, Docker, Blazor, Selenium, Razor, Postman, Git (Github), Kanban

Softserve Inc.

Jun 2022 – Aug 2022, Remote

Backend .NET Developer

API-based Historical encyclopedia app

A free web application that allows users to explore and search for information about prominent Ukrainian historical figures. The platform integrates rich content such as images, detailed biographies, historical maps, and chronological timelines.

Responsibilities:

- Developed secure ASP.NET Core APIs
- Implemented JWT-based authentication
- Worked with relational data using EF Core
- Ensured code quality with testing and analysis tools
- Fixed bugs and added new features
- Collaborated using Scrum and GitHub

Tech stack: .NET Core, ASP.NET Core, Entity Framework Core, JWT Authorization, REST API, MS SQL Server, NUnit, Moq, FluentAssertions, Azure, Git (Github), Scrum

EDUCATION

Bachelor's degree

Automation and computer integrated technologies

National Technical University of Ukraine (Kyiv Polytechnic Institute)

LANGUAGES

English - Advanced

Polish - Communicative

Ukrainian - Native
